Sunday, July 26

0037 – People were reported to be on the roof of the Oasis.

0040 – A female reported a man beating up a woman. RCSO was notified. At 0119, per a deputy, all parties were spoken to.

1102 – A male called in and stated his neighbor attempted to start an old vehicle and could see smoke rising from the front end. While paging out Nashua Fire Department, the male heard a "boom."

1734 – A female called in and requested to have a deputy stop by and talk with her and her husband when they have time. She wouldn't give a reason for the request.

1740 – A male is combining hay and reported a fire on the east side of the road. Norval was notified of the fire as it was under the wires and Northwestern Energy was notified of the fire in the area of the power lines.

1828 – A reporting party called in and stated there was a PFMA going on between three females who are family members.

1947 – A post from the VCSO Dispatch Facebook page states a male is saying his father bought a horse trailer from north of Saco and blew a tire. It is somewhere west of Glasgow and will pick it up tomorrow. At 2104, per an email, the horse trailer is about three miles west of Glasgow. It is off the road and not a hazard.

There were 21 motor vehicle stops, 15 accidental/prank 911 calls, six reports of barking/lost/loose dogs, five reports of loose/dead livestock and six calls requesting a VIN inspection on trailer or vehicle.

Monday, July 27

0020 - An officer spoke with three females who were bored and following the officer around.

0054 - A man reported he was passed by a horse trailer and somehow ended up in the ditch, his trailer with the skid loader rolled and the truck is heavily damaged but there are no injuries. The truck that likely sideswiped him was white with a horse trailer and it kept going westbound.

0934 - A man advised they just had a drive by without stopping at the boat inspection station. He gave a description of the vehicle that was headed west towards Glasgow. F&G was not answering. MHP was notified.

1004 – A reporting party received several calls from a foreign-accented male who requested she verify her Medicare number, which she did. The caller stated they were sending a brace for her lower back pain. She told the male she didn't have back pain and the doctor hadn't ordered one. A deputy spoke to the caller and will be providing a fraud packet. She will also be calling Medicare to report this matter to them.

1046 –A man made contact with an officer due to a disturbance and stated another man was being removed from a commercial property. The man left when asked, before the officer arrived.

1242 - BIA Engine 61 asked dispatch if they had any information in Wiota. He was told they did not have any reports and no burn permits. He advised they are responding to an active fire in Wiota along the Canal. He stated further it is off of Wiota Road and they are on scene. He said they have it handled and no further units need to be paged.

1344 – A reporting party called to announce the light is not working. MDOT in Glasgow was contacted regarding the nonworking light. At 1356 an officer reported the lights are all working again.

1350 - A man reported a fire in a field just before the Milk River hill headed towards Fort Peck. He said it is about 30 feet in diameter but is spreading because it's dry out there. Another man called to say the fire isn't moving very quickly but thought farm equipment started the fire. At 1404 an anonymous caller reported a fire on Britzman road. The caller was unable to tell dispatch where the fire was exactly, just that they see smoke in a big field. Fire Command believes this would be the same fire. At 1447 Fire Command reported the fire was contained and in mop up.

1353 - A card was started at the request of an officer for a theft that happened on Saturday by an employee.

1513 - A woman was parked in front of the Glasgow clinic by the entrance. She would like to leave but doesn't think she can because someone parked a vehicle very close to her vehicle.

1828 - A man reported an air boat with a big fan just went by without stopping. The boat is headed westbound.

Tuesday, July 28

0044 - Received a hit confirmation request on a man. Confirmed with a deputy and confirmation sent.

0252 - A deputy reported the door was wide open at the fire department building in St. Marie. The main door and the door on the skid steer was open. Left a message on the Water Dept voicemail.

0407 - A suspicious vehicle was reported. Per an officer, it is a city worker.

0923 - A woman turned herself in on her warrant.

1309 - A woman asked if anyone reported a fire near Richland. She was told dispatch hadn't received one but Daniels County issued a burn permit. She said this is definitely not a burn permit, as it is a fire in a hay field. She stated it is near mile marker 10.5 and about a mile north of the highway. Dispatch tried to ask the caller how big the fire is but the caller either lost connection or hung up. Richland and Opheim fire departments were paged. Tried to call the gas station in Richland but the line was busy. Tried to call Richland Fire chief, no answer. Another call to the gas station got through to a man who said all their trucks are en route. At 1402 Opheim FD called to say the fire is contained, as two farmer trucks are on scene in mop up and three department trucks are headed back to town.

1604 - Opheim FD called to state Richland fire was en route to the same location as the previous fire at the above location. Paged out Opheim and Richland County Fire as well as called Richland to make sure they were on the way. Opheim called in and stated they are responding with three trucks. At 1707 Opheim FD called to state the fire is contained and turned back to the farmer to watch. Opheim was leaving the scene. Richland still has one truck on scene. They will make one loop around and then leave.

1805 - A woman said she received a call a few minutes ago from someone asking questions about her son's ex. She told the caller that she doesn't know them and doesn't know if she has permission to talk to them and hung up. She said the caller ID showed #1001 "Out of Area." She wanted to know what she should do. The caller was advised an officer would stop by to talk to her.

1839 - A caller said they are receiving multiple burglary alarms for the front door of a business. At 1845 Interstate Alarm called to say that an employee requested they cancel. Another employee texted and said everything is okay.

1850 - A woman reported she had two generators stolen sometime within the last two days. The generators were padlocked to her camper. She's camping in Fort Peck.

1949 - A woman reported that her husband has a parenting plan with another woman. He was supposed to pick up the children but the other woman was trying to change the time they meet in Miles City. The caller would like an officer to call her back.

2001 - A man said he was operating a Bobcat and took out a power line. The power line broke off a building and part of it is laying in the alley. It's not sparking. Northwestern Energy was notified and sent someone.

2210 - A woman reported a suspicious vehicle parked on a public roadway where people don't usually go. The lights are off and she couldn't see if anyone was inside the vehicle. A deputy checked it out, the vehicle has a flat tire and will be moved tomorrow.

Wednesday, July 29

1000 - A man reported a little kid on a mini motorcycle driving down the wrong side of the road on 1st Ave. S in front of Alley's Palace. He said the mini motorcycle is yellow and the kid is wearing a red helmet. He just wants the kid talked to as he is concerned the kid is going to get hurt.

1119 - A woman lost her engagement ring and would like a call if it is found.

1231 - A man asked if anyone was near St. Marie. He said he hasn't been able to get in touch with his brother all morning. He also stated they have cameras in the house and his brother hasn't set any of them off yet this morning. The caller is about 30 minutes away but is headed that way. At 1304 Dispatch was notified the brother was locked out of the house since this morning. He is back inside now and fine.

1253 - A man called wanting an officer to move another man on down the road as he is out there acting like he is having a party.

1718 - A woman requested that someone from the health department call her back. The health department was contacted.

1858 - A woman requested an officer. They have an intoxicated woman at the pumps that was trying to buy alcohol. A description of the vehicle was provided. At 1935 the caller called to let dispatch know that the other subjects from the vehicle just came in and tried to take the woman's wallet from them. The caller still has the wallet. The subjects took off walking.

2223 - A man reported that he lost a box spring. He believes he possibly lost it between Fort Peck and Glasgow on Hwy 24 South. He is going to go out and look for it.

2233 - A man reported that his boat broke down and he's in the middle of the lake with his 13-year-old son. He gave a description of their location and the boat. The wind is at their back and blowing them towards the marina. A deputy said this doesn't sound like a search and rescue. Thompson and Sons were contacted who towed the boat in.

Thursday, July 30

0322 - A woman called and requested to speak to an officer. She said she wanted to make a statement. At 0326 she called back and asked that the officer be told the situation was "rather serious." At 0334 an officer advised the woman was filling out a statement in reference to a previous call.

0828 - A woman reported a man in the dispatch parking lot standing out in the rain. He isn't doing anything wrong but found it odd as he appears to be mimicking a shower and dancing. Dispatch identified the man dancing and showering in the rain. He moved up onto the sidewalk to continue his enjoyment of the weather.

1036 - BIA61 radioed saying they see a plume of black smoke near Richland or Lustre Road. They are responding to check it out. At 1145 fire departments were paged with the original location which is north of Highway 2. At 1147 Daniels County Dispatch called advising there was a grass fire 3 to 4 miles south of Richland on the east side of the road. They do not have anyone to send. Advised BIA FD was responding. At 1149 Dispatch spoke to a man at the Richland gas station who advised Richland FD is out fighting this fire. At 1213 Opheim FD called to state the fire is pretty much out. There are farmers out doing mop up and OFD is going back to Opheim. At 1221 Richland FD was back in Richland.

1204 - A man called in stating he lost his wallet. He last saw it Tuesday when he was downtown. He gave a description of the wallet and said he had no money, credit cards or bank cards in it.

1216 - A woman called in advising there is a motorhome that is trying to go under the underpass and it appears they may need help getting out.

1253 - A woman called in to report the theft of two generators and two gas cans. She advised they are camping and someone cut the chain link. She last saw the generators Sunday at approximately 1700. An officer talked with woman and will talk with other campers.

1428 - A vehicle is overheating. The driver is going to add coolant and call if he needed any more help.

1600 - A woman advised a truck turned off the highway to

Annual Drinking Water Quality Report

City of Glasgow
PWSID#MT0000415

We're very pleased to provide you with the annual Water Quality Report. We want to keep you informed about the excellent water and services we have delivered to you over the past year. Our goal is and always has been, to provide to you a safe and dependable supply of drinking water. Our water source is surface water from the Missouri River.

We're pleased to report that our drinking water is safe and meets federal and state requirements.

If you have any questions about this report or concerning your water, please contact Robert Kompel, Director of Public Works. He can be reached at 228-2476 ext. 4. If you want to learn more about our water, please attend any of our regularly scheduled meetings. They are held on **the first and third Mondays of the month at 5:30 pm**.

Glasgow routinely monitors for constituents in your drinking water according to Federal and State laws. The attached report and this one show the results of any detects in the monitoring for the period of **January 1st to December 31, 2019**. For constituents that are not monitored yearly, we have reviewed our records back to the last time the constituent was monitored.

We have monitored for lead and copper, and all of our samples have been in compliance with the Lead and Copper Rule. If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. Glasgow is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.

Parameter	Date	High/Range	Units	Action level	Source of Contamination
Lead	7/24/18	.006/.000-.006	Ppb	15	Household plumbing
Copper	7/24/18	.65/.05-.65	Ppm	1.3	Household plumbing

In the tables above and below you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

Parts per billion (ppb) or Micrograms per liter (ug/1) - one part per billion corresponds to one minute in 2000 years or a single penny in $10,000,000.

Parts per million (ppm) or Milligrams per liter (mg/l) - one part per million corresponds to one minute in two years or a single penny in $10,000.

Action Level - the concentration of a contaminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

Treatment Technique (TT) - (mandatory language) A treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

Maximum Contaminant Level - (mandatory language) The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

Maximum Contaminant Level Goal - (mandatory language) The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

Nephelometric Turbidity Unit (NTU) -nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

Picocuries per liter (pCi/L) -picocuries per liter is a measure of the radioactivity in water.

TEST RESULTS

Contaminant	Violation Y/N	Sample Date	Highest Level Detected		Unit Measurement	MCLG	MCL	Likely Source of Contamination
Inorganic Contaminants								
Arsenic	N	11/18/19	0.003		Ppm	10	0.01	Erosion of natural deposits
Fluoride	N	11/18/19	0.6		Ppm	4	4	Erosion of natural deposits
Nitrate + nitrite as N	N	11/18/19	0.04		Ppm	10	10	Erosion of natural deposits
Disinfection By-products								
Total trihalomethanes (TTHMs)	N	11/18/19	39		Ppb	0	80	By-product of drinking water chlorination
Haloacetic Acids (HAAs)	N	11/6/19	27		Ppb	0	60	By-product of drinking water chlorination
Total Organic Carbon	N	11/06/19	4.1		Ppm	Na	na	
Radioactive Contaminants								
Alpha emitters	N	11/15/17	3.4		Pci/L	0	15	Erosion of natural deposits

Microbial Contaminants

Parameter	Violation Y/N	Date	Highest level detected	Lowest monthly % of samples meeting limit	Unit Measurement	MCLG	MCL	Likely Source of Contamination
Turbidity	N	11/30/19	0.13	100% for all months	Ntu	N/a	TT	Soil Runoff

Our system had one violation for tardy submission to the State of Montana. However, we're proud that your drinking water meets or exceeds all Federal and State testing requirements. We have learned through our monitoring and testing that some constituents have been detected. The EPA has determined that your water **IS SAFE** at these levels.

All sources of drinking water are subject to potential contamination by constituents that are naturally occurring or are manmade. Those constituents can be microbes, organic or inorganic chemicals, or radioactive materials.

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

MCL's are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.

Some people may be more vulnerable to contaminants in drinking water than the general population. Immunocompromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

This annual Drinking Water Report will NOT BE MAILED out to individual water customers. A copy of this report can be picked up at the City Hall.

INVITATION FOR BIDS
LEASE OF STATE LANDS

Sealed bids will be accepted by the Montana Department of Natural Resources and Conservation, Ag & Grazing Management Bureau, P.O. Box 201601, Helena, Montana 59620, through August 28, 2020 for a 10-year Agricultural & Grazing Lease on the following described lands in Daniels County.

Township 35 North, Range 44 East
Section 16: S2SW4
Section 18: SE4
Section 21: ALL
Section 27: W2
Section 29: ALL
Section 30: LOTS 1-4, E2W2, E2
Section 28: ALL, LESS 4.39 AC in SE4SE4SE4
Containing: 1403.38 acres of grazing land and 1694.45 acres of CRP AG.

The minimum rental paid to the State for the new lease shall be the total of $6,589.20 for the grazing acreage (based on a grazing carrying capacity of 510 AUMS at a rate of $12.92 per AUM) and 50% share of the Conservation Reserve Program rental payment for the CRP Agricultural acreage.

By law all bids in order to be considered valid must include a deposit in the form of a certified check, cashier's check or money order in the amount equal to 100% of the amount bid for grazing, $20.00 per acre for the CRP agricultural land, plus a non-refundable lease application fee of $25.00. In order to be considered, all bids must be accompanied with a completed application to lease state lands.

The successful bidder must in addition to the rental, make settlement with the owner of the existing improvements on the land.

The State Board of Land Commissioners reserves the right to reject any and all bids.

Bid forms may be obtained from the Department at either the **GLASGOW FIELD OFFICE: 224 6th Street South, Glasgow, 59230. Phone: (406) 808-7082** or the Helena Office: 1539 11th Avenue, Helena, 59620. Phone: (406)-444-4951.

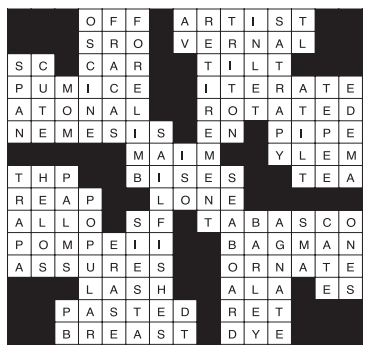
LAST WEEK'S ANSWERS



Current Coronavirus (COVID-19) Scams

AGING SERVICES SPECIALIST LISA BAXTER / FOR THE COURIER

Older Americans are particularly vulnerable to coronavirus (COVID-19) so we want to remind Medicare beneficiaries to be vigilant and take precautions to avoid falling victim to healthcare fraud during this pandemic. We are warning Medicare beneficiaries that scammers may try to use this pandemic to steal their Medicare number, banking information, or other personal data.

Fraud involving economic stimulus checks, ineffective or dangerous medical interventions, pet care, charity scams, phishing or malware delivery is constant and, like the virus, constantly mutates.

Some of the current scams include persons going door-to-door to get people to buy treatments, cures, vaccines, medications and tests for the virus. They tell people these tests can be performed at home – there are currently no such tests.

Scams now impersonate contact tracing, the process of identifying individuals who may have been exposed to the virus through involvement with others known to test positive or, in the case of those testing positive, providing an alert to others who are at risk. Legitimate contact tracers will identify themselves and the organization for which they work and likely request your name and address, health information (condition) and the names of places you visited or people with whom you have been in contact. Real contact tracers deal with data and collect facts. Impersonators pose as contact tracers primarily to steal either money or information. They emphasize emotion in their tactics so the scam may attempt to reassure you that you can be assisted or frighten you by painting a bleak or threatening situation. Since contact tracers may reach out to you by phone, text message, email or personal visit, it is safe to assume that the criminals will use these methods as well.

Clear signs are easily recognizable in determining whether you are dealing with a legitimate contact tracer or a criminal. The process is called contact tracing, not contract tracing. A number of reported scam attempts indicated the use of the latter term. Another indication comes when the criminal identifies his or her organization. While the cost of contact tracing is often covered with Federal funds, the actual activity is conducted by state and local government, public agencies, or foundations, not by the Centers for Disease Control (CDC) or the Federal Department of Health and Human Services. Before providing any information, make positive identification. Request a call back or make the call yourself to a number you can authenticate. This can be accomplished by contacting your State Health Department 1-888-333-0461 or your local public health department. Legitimate contact tracers do not ask for money (the preferred scammer payments are gift cards, money orders, or cryptocurrency). You do not need to provide any bank or credit card information, nor will you be asked for your Social Security number. Contact tracing does not involve citizenship or immigration status, and as a final warning, do not click on email and text links or downloads as these may infect your technology with malware or viruses.

The COVID-19 pandemic provides the criminal with "the perfect storm" situation for scams: emotion and anxiety. Your task is to reduce these responses by applying logic and reason. Unfortunately, scammers take advantage of the most vulnerable people during times of uncertainty and change. You must protect yourself by making sure you only give your Medicare number to your doctor, pharmacist, hospital, health insurer, or other trusted healthcare provider. If someone calls you on the phone, saying they are from Medicare, and asks for your Medicare number or other personal information – just hang up.

Medicare cards no longer have Social Security numbers on them to reduce fraud and protect beneficiaries from identity theft. Even with this change, you should guard your Medicare card like you would a credit card. Be sure to check your Medicare claim summaries for errors and questionable bills. Please note there are no new plastic microchipped Medicare cards coming. This is another item on our scam watch list.

When in doubt you can call your State Health Insurance Assistance Program (SHIP) at 1-800-551-3191 to ask for advice or to notify of a potential scam.

NorthWestern Energy Warns Of Scams

FOR THE COURIER

NorthWestern Energy is warning that scammers are likely to use the end of the temporary moratorium on service disconnections to steal money from Montanans.

NorthWestern Energy voluntarily stopped service disconnections for non-payment in March to assist customers financially impacted by the COVID-19 pandemic.

Several additional tools are in place now to assist customers who may be struggling to pay their energy bills. For the safety of our employees, customers and communities, NorthWestern Energy's walk-in offices remain closed, however, the customer associates from those offices are assisting customers over the phone. Any customer concerned about their ability to pay their energy bill should contact NorthWestern Energy right away.

"NorthWestern Energy notified the Montana Public Service Commission that service disconnections will resume for the small percentage of accounts with past due balances who have not responded to multiple requests to contact us to make payment arrangements," said NorthWestern Energy Vice President Customer Care, Communications and Human Resources Bobbi Schroeppel. "Unfortunately, we know from the experience of other energy providers nationwide and in Montana that opportunist criminals may try to take advantage of people now."

Here are warning signs that you may be the target of a scam:

Threat: NorthWestern Energy never contacts any customer threatening service disconnection if a payment is not made immediately.

Unexpected: NorthWestern Energy provides multiple notices, such as phone calls, mail and door hangers, over several weeks to customers with past-due accounts. A service disconnection is completed only after a customer receives several notifications.

Surprise: Customers with past due balances continued to receive notices from NorthWestern Energy throughout the temporary moratorium on service disconnections voluntarily put in place in March. NorthWestern Energy customers with past-due bills will not be surprised by a notice.

Afternoon, Friday or holiday: NorthWestern Energy does not do service disconnections: after noon; on Fridays; the day before or during holidays.

If you think you are being contacted by a scammer, hang up, delete the email and call NorthWestern Energy at 888-467-2669.

NorthWestern Energy has extended options for customers with past due balances, including longer terms for payment plans. Our customer associates can also provide referrals to organizations that provide assistance for energy services.

More information on payment options is available at northwesternenergy.com.

Law Enforcement

FROM PAGE 6B

go under the underpass and is now backing out before he got stuck. She was right behind him and the DOT sign didn't light up. Called and left a message for MTDOT about the sign. On 07/31 at 1209 a man with MT DOT called to let dispatch know the height detection sign is working. He also stated there are ways the vehicle can get around this device by being in the inside lane then jumping over to the turn lane for instance but again it is working.

1623 - A woman reported that she was headed eastbound on US 2 by the Nashua overpass. A westbound red and black GMC pickup (plate unknown) was driving in her lane. The caller and some other vehicles had to take the ditch to avoid getting hit. The incident happened about three minutes ago. The caller is willing to sign a complaint.

1801 - A man called in stating a woman has a TOP on him. He is supposed to pick up the kids at McDonald's tomorrow morning at 0800 but he has been having car problems all day and he is in Great Falls. He has texted the woman to see if he can pick them up at 1000 instead and hasn't heard anything back. He would like an officer to call her and tell her to answer his text message. A deputy spoke to both individuals and they will be meeting at 1500 in the sheriff's office parking lot.

1802 - A deputy advised that he's out on the road with two people. Their car won't start.

2204 - A man reported that he has squatters at a residence. He said the squatters are there cooking dinner now. At 2213 the caller was talking to a woman. They're coming to an agreement that she will try to move within 24-48 hours.

Friday, July 31

0545 - RP called and said there were two vehicles parked at the dumps and they just heard a gunshot. Her husband got on the phone and advised there was a red and black truck. At 0637 a deputy advised it was not a gunshot, the suspects put a firework inside a microwave and blew it up.

0809 A woman reported seeing a lightning strike in the Northern Heights area. She isn't sure if it hit a pole or a house but she saw a lot of sparks and smoke. She said the rain has made most of it dissipate but she thought someone should check on it. She still has power at her residence. An officer patrolled Northern Heights and did not see any poles hit and everyone appears to have power.

1248 - RP reported a grass fire. Richland gas station stated that two men took off for a fire. OFD responded.

1327 - A firearm was entered as stolen.

1408 - A man from Glasgow flagged a deputy down to report a suspicious male at the shaft houses on top of the dam. He said the male subject was messing with the fencing around the buildings. The caller advised the subject was in a gray car. A deputy cheeked around the shaft buildings and the access road behind them and didn't see anyone in the area.

1444 - A deputy assisted someone who wanted to know where to turn in an application.

1524 - A fire about three miles south of Glentana and two miles east was reported. At 1647 OFD advised they have turned this over to the land owner now.

1642 - A woman with an alarm company called in an alarm. Dispatch spoke with a man at the business who said someone accidentally hit the silent alarm. Everything is fine.

1659 – Opheim Fire called in stating they are just filling their trucks with water then will be en route to a fire in Richland. At 1710 a woman called in to report a hay field on fire. She said her husband called to report this. He is out haying and started a fire. He is on the Canadian side but the fire has jumped over the boarder into our country. At 1724 a man called to say he got a call saying the fire is out. Opheim Fire was told too so they are turning around to go back to their station.

1710 - A man went outside and found that someone hit his pickup. He said the bumper is half tore off. An officer advised there may be driver's side rear damage to the bumper area. The bumper may be pulled part way out. The officer advised this accident actually happened at the man's residence. He has gravel there and he accidentally hooked a wall. This will be a private property accident.

1943 - A deputy called in to request a 20 minute deprivation period be started. Deputy called in and requested a BAC of .213 be logged. A deputy will remain on scene until their friend gets there from Wolf Point.

2244 - PCSO reported a fire on the county line on BLM land. PCSO called back to say the fire is about 10 miles north of Fort Peck in the Larb Hills. Hinsdale Fire Department will head that way as it sounds like it is southwest of Hinsdale. Dispatch talked to the RP who said it is a couple of miles hike in there and you wouldn't be able to get a truck in. The fire was about 2-3 acres. At 0110 (Aug. 1) BLM said the CMR crew is coming down. At 0134 CMR Fire agreed that Hinsdale FD wouldn't be able to get there. CMR crew will hike in and see what they can do.

Saturday, Aug. 1

0052 – A male reported there is a fight in the parking lot. He stated it was escalating and when he saw physical contact he called.

0115 – An alarm at a business was reported. A female was contacted and she stated as long as it was secure, she is fine and she will let the last employee out. Another female arrived and checked everything. The door was secure and the alarm was reset.

0146 – A domestic disturbance was reported.

0708 – A reporting party called in about a male subject walking in front of Albertsons, heading east in his underwear, one sock and no shoes. An officer was notified and came out with the individual at 4th Street and US Highway 2. The individual declined to give his information, and the officer stated he isn't breaking any laws. The officer gave the male a ride to the Cottonwood where he is staying.

1106 – A car door on a vehicle at Albertsons is open but no one is around. At 1109, a deputy found the owner of the vehicle who stated she accidentally left the door open. Everything is okay.

1121 – A reporting party called in about an emu running up and down the highway near the Vet Clinic. The owners of the animal were attempted to be contacted with owners. At 1127, a deputy requested an officer come to the scene to help keep an eye on an emu as he contacts the owners. At 1143, the emu had been returned to the backyard.

1518 – A male with BNSF Police called in requesting officers for trespassers on the train. He stated there are reportedly four to five individuals climbing all over the train. A description of the individuals were provided. He also stated there is a pickup truck with some company logo on it with tool boxes in the bed of the truck, in what appears to be maintenance however there is no work scheduled on the train. Deputies and officers responded to the scene and advised could not locate the individuals or truck at the location.

1535 – A male called in wanting it on record that his ex has not let him speak to his children for two days in a row.

1548 – A stolen vehicle was recovered.

1726 – A female with RCSO dispatch called requesting mutual aid on a grass fire in Wolf Point. Frazer and Nashua Fire Department was dispatched. It was determined an equipment yard of some sort was on fire.

2104 – A male is trying to get a four-wheeler back from another male whom he borrowed it to. It was determined the four-wheeler wasn't seen since the night before when the male caller tried getting it. It was advised to sign the vehicle has stolen.

2258 – A suspicious vehicle was reported.

2314 – A firefighter advised he is turning around and heading back to Wolf Point to assist on a second fire, related to the fire in call 1726.

Sunday, Aug. 2

0943 – Officers are out with a vehicle who looks to be changing a tire.

1519 – A reporting party called in about four people shopping the store and something just felt off. An adult and a child went through the line getting only a couple of items and then went outside. The caller stated they are no longer in the store but left in a white car. She didn't have anymore description than that but does have a photo of one of the girls. An officer later stated due to lack of information there was nothing that could be done.

1918 – A conditions violation was reported. An officer was unable to locate the male after checking Alley's Palace, Stockman's Bar, Montana Tavern and the Oasis.

2006 – A female lost her cell phone and was unsure if someone may have found it. She states it was pinging within 100 feet of her. An officer helped her locate her phone which was in the vehicle.

2057 – A possible drunk driver was reported to McCone County Sheriff's Office which was traveling southbound on MT 24 South.

2110 – A female reported a fire on Clarks Hill, west of Frazer on BIA 1.

2144 – An alarm was reported at a side door at a local business. It was determined everything was secure.

2215 – A male reported he had a note addressed to a female from a deputy to call the Sheriff's Office. He states the female lives next door to him.
