## HELP WANTED

**Opheim School is seeking Substitute School Bus Drivers for the 2015-2016 school year.** Wage is dependent upon route/trip. Minimum of 10 training hours required annually. Applicants must possess a Montana CDL license with passenger and school bus endorsements, along with first aid/CPR certificate and be able to pass a CDL medical exam prior to driving the route. This position requires being able to pass a criminal background check, have a current negative TB test and pre-employment drug test, and a clean driving record. Responsible for daily pre- and post-trip bus inspections, checking bus for left items, clearing trash and for reporting student, route or mechanical problems. The District is willing to cover the cost of fees for selected candidates associated with first aid/CPR training, medical exam, TB and drug testing.  
**If interested call the Opheim School office at 406-762-3213.**

THE NORTHERN WYOMING DAILY NEWS, a 5-day per week, family-owned newspaper located in Worland, WY near the Bighorn Mountains, in the Rocky Mountain West is seeking a **community-focused reporter** interested in agricultural news and human interest stories. The ideal candidate will be creative, motivated and committed to excellent writing and accurate reporting. We are looking for someone who cares about community journalism. This job encompasses a variety of responsibilities - generating story ideas, writing, meeting deadlines, and multitasking. Candidate must have excellent communication skills and work well with a variety of personality types, both in the newsroom and in the local communities. Preferred requirements: Bachelor's degree or equivalent experience; strong grasp of AP Style; digital photography experience. The ideal candidate will also appreciate living in the West. Located in the county seat of Washakie County, Worland is located within the Big Horn Basin and along the Big Horn River in beautiful Northwestern Wyoming. We are fortunate to have easy access to the Bighorn Mountains to the east and the Wind River Mountains to the south including the Wind River Canyon. A community hub for the 5,487 people who reside in the city limits, Worland has a proud heritage of initiative, innovation and just plain grit with outdoor opportunities around - hiking, fishing, downhill and cross country skiing, biking, snowshoeing, kayaking, ice climbing and more. Salary plus generous benefit package including health insurance, retirement and paid vacation.

Please submit a cover letter, your resume and two examples of your best work to Karla Pomeroy at [editor@wyodaily.com](mailto:editor@wyodaily.com). You may apply in person at our Worland office at 201 N. 8th St., Worland, WY 82401.

PUBLIC NOTICES

NOTICE OF TAX LIEN SALE FOR TAX YEAR 2014 Pursuant to 15-17-122 MCA

NOTICE IS HEREBY GIVEN that delinquent property taxes for tax year 2014, including penalties, interest and costs, are a lien on the property upon which the taxes are assessed. On the 15<sup>th</sup> and 16<sup>th</sup> day of July, 2015, from the hours of 9:00 a.m. to 5:00 p.m. on July 15<sup>th</sup> and from 8:00 a.m. to 12 o'clock p.m. on July 16<sup>th</sup>, the property tax lien interests in certain properties located in Valley County upon which the 2014 taxes became delinquent June 2, 2015, will be offered for sale.

The sale will take place in front of the Valley County Treasurer's Office at the Valley County Courthouse, 501 Court Square of Valley County, Glasgow, Montana. If the delinquent taxes, plus all interests, penalties and costs are not paid prior to the time of the tax lien sale; the lien will be offered for sale. If the tax lien is not sold, Valley County will become the purchaser and a Tax Lien Sale Certificate will be issued to Valley County.

A list of the property, upon which the taxes are delinquent, upon which there currently exists a lien, and which will be offered for sale, is on file in the Office of the Valley County Treasurer and is open for inspection.

Get Your Supertag Chances By July 2

FROM MFWP/FOR THE COURIER

Eight SuperTag hunters will win the opportunity of a lifetime to hunt a moose, bighorn sheep, mountain goat, elk, deer, antelope, mountain lion and bison in any legal district open for that species next fall.

SuperTag chances are \$5 and there is no limit on chance purchases. They make great gifts, too.

The deadline to purchase a SuperTag chance is July 2. Su-

OUTDOORS NEWS

perTag proceeds go to enhance hunting access and boost FWP enforcement efforts.

SuperTags are available at all FWP offices, license providers, or online at [fwp.mt.gov](http://fwp.mt.gov). Click "SuperTag." To purchase a SuperTag chance, a current conservation license is needed.

Boating Safety Is As Easy As 1-2-3

FROM MFWP/FOR THE COURIER

As the summer boating season begins, FWP urges all boaters to follow three basic rules on the water:

Designate a skipper who won't drink alcoholic beverages while the boat is on the water.

Have approved lifejackets on board and readily accessible for every passenger, and require children under 12 years of age to abide by the law and wear their lifejackets when the boat is in motion.

Do not exceed a boat's safe carrying capacity. Boats that are over loaded or unbalanced are more likely to capsize.

WEEKLY MENUS

June 29 – 30

This menu is sponsored by the local businesses listed below. Thank you for your community support!

Senior Citizens - Glasgow (5 Days a week) for reservations, call 228-9500 by 10 a.m. the day before. Each day's menu includes coffee, bread, butter & milk. Menu items subject to change without notice.

Hinsdale (Tues. & Thurs.) Stoughies Bar & Grill; Fort Peck (Mon., Wed. & Fri.)

Monday, June 29  
Beef Stew

Tuesday, June 30  
Pork Chops

July Menu not available at press time

Nashua Senior Center Menu NO MEALS WILL BE SERVED May 21st through Aug. 2nd

MARCO

VALLEY BANK

Annual Drinking Water Quality Report  
City of Glasgow  
PWSID#MT0000415

We're very pleased to provide you with the annual Water Quality Report. We want to keep you informed about the excellent water and services we have delivered to you over the past year. Our goal is and always has been, to provide to you a safe and dependable supply of drinking water. Our water source is surface water from the Missouri River.

We're pleased to report that our drinking water is safe and meets federal and state requirements.

If you have any questions about this report or concerning your water, please contact Robert Kompel, director of Public Works. He can be reached at 228-2476. If you want to learn more about our water, please attend any of our regularly sched-

uled meetings. They are held on **the first and third Mondays of the month at 5:30 p.m.**

Glasgow routinely monitors for constituents in your drinking water according to Federal and State laws. The attached report and this one show the results of any detects in the monitoring for the period of **January 1<sup>st</sup> to December 31<sup>st</sup>, 2014**. For constituents that are not monitored yearly, we have reviewed our records back to the last time the constituent was monitored.

We have monitored for lead and copper, and all of our samples have been in compliance with the Lead and Copper Rule. If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead

in drinking water is primarily from materials and components associated with service lines and home plumbing. Glasgow is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 30 seconds to 2 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at <http://www.epa.gov/safewater/lead>.

Parameter	Date	High/Range	Units	Action level	Source of Contamination
Lead	9/12/11	.63/.06-.63	Ppb	15	Household plumbing
Copper	9/12/11	.008/0-.008	Ppm	1.3	Household plumbing

In the tables above and below you will find many terms and abbreviations you might not be familiar with. To help you better understand these terms we've provided the following definitions:

*Parts per billion (ppb) or Micrograms per liter (ug/l)* - one part per billion corresponds to one minute in 2,000 years or a single penny in \$10,000,000.

*Parts per million (ppm) or Milligrams per liter (mg/l)* - one part per million corresponds to one minute in two years or a single penny in \$10,000.

*Action Level* - the concentration of a con-

taminant which, if exceeded, triggers treatment or other requirements which a water system must follow.

*Treatment Technique (TT)* - (mandatory language) A treatment technique is a required process intended to reduce the level of a contaminant in drinking water.

*Maximum Contaminant Level* - (mandatory language) The "Maximum Allowed" (MCL) is the highest level of a contaminant that is allowed in drinking water. MCLs are set as close to the MCLGs as feasible using the best available treatment technology.

*Maximum Contaminant Level Goal* -

(mandatory language) The "Goal"(MCLG) is the level of a contaminant in drinking water below which there is no known or expected risk to health. MCLGs allow for a margin of safety.

*Nephelometric Turbidity Unit (NTU)*- nephelometric turbidity unit is a measure of the clarity of water. Turbidity in excess of 5 NTU is just noticeable to the average person.

*Picocuries per liter (pCi/L)* - picocuries per liter is a measure of the radioactivity in water.

TEST RESULTS

Contaminant	Violation Y/N	Sample Date	Highest Level Detected		Unit Measurement	MCLG	MCL	Likely Source of Contamination
Inorganic Contaminants								
Arsenic	N	12/04/14	0.003		Ppm	10	0.01	Erosion of natural deposits
Fluoride	N	12/17/13	0.7		Ppm	4	4	Erosion of natural deposits
Nitrate + nitrite as N	N	12/04/14	0.03		Ppm	10	10	Erosion of natural deposits
Disinfection By-products								
Total trihalomethanes (TTHMs)	N	11/18/14	63		Ppb	0	80	By-product of drinking water chlorination
Haloacetic Acids (HAAs)	N	11/18/14	19		Ppb	0	60	By-product of drinking water chlorination
Total Organic Carbon	N	12/04/14	2.9		Ppm	Na	na	
Radioactive Contaminants								
Alpha emitters	N	11/19/08	1.8		Pci/L	0	15	Erosion of natural deposits
Microbial Contaminants								
Parameter	Violation Y/N	Date	Highest level detected	Lowest monthly % of samples meeting limit	Unit Measurement	MCLG	MCL	Likely Source of Contamination
Turbidity	N	5/28/14	0.131	100% for all months	Ntu	N/a	TT	Soil Runoff

**Our system had one (1) violation for a missed lead and copper sampling parameter.** In response to that missed sampling parameter, we have been working with the Montana Department of Environmental Quality on the matter and have been directed to submit another lead and copper sample this year. Historically, our lead and copper samples have always been in compliance with State and Federal Rules and we have no reason to not be certain that our future sample will meet the Rule. No action is necessary by the residents of Glasgow in response to this matter.

We're proud that your drinking water meets or exceeds all Federal and State requirements. We have learned through our monitoring and testing that some constituents have been detected. The EPA has determined that your water **IS SAFE** at these levels.

All sources of drinking water are subject to potential contamination by constituents

that are naturally occurring or are man made. Those constituents can be microbes, organic or inorganic chemicals, or radioactive materials.

All drinking water, including bottled water, may reasonably be expected to contain at least small amounts of some contaminants. The presence of contaminants does not necessarily indicate that the water poses a health risk. More information about contaminants and potential health effects can be obtained by calling the Environmental Protection Agency's Safe Drinking Water Hotline at 1-800-426-4791.

MCL's are set at very stringent levels. To understand the possible health effects described for many regulated constituents, a person would have to drink 2 liters of water every day at the MCL level for a lifetime to have a one-in-a-million chance of having the described health effect.

Some people may be more vulnerable to contaminants in drinking water than the

general population. Immuno-compromised persons such as persons with cancer undergoing chemotherapy, persons who have undergone organ transplants, people with HIV/AIDS or other immune system disorders, some elderly, and infants can be particularly at risk from infections. These people should seek advice about drinking water from their health care providers. EPA/CDC guidelines on appropriate means to lessen the risk of infection by cryptosporidium and other microbiological contaminants are available from the Safe Drinking Water Hotline (800-426-4791).

We ask that all our customers help us protect our water sources, which are the heart of our community, our way of life and our children's future.

This annual Drinking Water Report will NOT BE MAILED out to individual water customers. A copy of this report can be picked up at the City Hall.
