PUBLIC NOTICES

LEGAL NOTICE

Montana Fish, Wildlife & Parks is seeking public comment on a proposal to reintroduce sharp-tailed grouse to western Montana.

Montana continues to support nearly all native species that were here historically present in the state. Sharp-tailed grouse are one of only a few native species missing from their original range in western Montana. They have deep cultural significance to native peoples and are a valued game species in eastern portions of the state.

Over the last 10 years, a genetic analysis, habitat evaluation, and restoration plan for sharp-tailed grouse in western Montana was completed and suggested that restoration was feasible. After evaluating this new information, FWP has developed four alternative strategies for restoring sharp-tailed grouse to western Montana and is seeking public comment to help guide our final decision.

The comment period extends for 30 days. Written comments will be accepted until **5:00 p.m. on March 17, 2019**. The draft environmental assessment is available at the FWP office, 490 N. Meridian Rd., Kalispell; Montana State Library, 1515 E 6th Ave., Helena; FWP State Headquarters, 1420 E 6th Ave., Helena; the FWP website at <http://fwp.mt.gov/news/publicNotices>. A copy of the plan may also be obtained by contacting the FWP Kalispell area office at 406-752-5501 or by emailing chammond@mt.gov, and available for viewing at all local libraries.

Please send all written comments to either of the following addresses: Montana Fish, Wildlife & Parks; Attn: Chris Hammond, Sharp-tailed Reintroduction Environmental Assessment; 490 N. Meridian Road; Kalispell, MT 59901; or chammond@mt.gov
